Divers Outils de diagnostiques automobile (MB Star, MAN-Cats, Gutmann, etc...)

My Work :

Run4YourLight

This game was a one week game jam project made at the SGA (Swiss game academy). Since it was well executed in a short amount of time and really interested people, the team decided to push the development further

FighterZOZZ

This game was a little mobile project made for fun to test the different possibilities with Unity-ADS, Google play store, android market and Apple store

[EN] Run4YourLight (R4YL) is a GameJam project built in one week at the Swiss Game Academy 2021.

Possess the spirit of the house you chose. Follow your light and don't go too far away from it or you might disappear for ever! Be careful with the other houses, you know they aren't trustworthy...

[FR] Run4YourLight (R4YL) est un projet de GameJam créé en une semaine à la Swiss Game Academy 2021.

Prenez le contrôle de l'esprit de la maison de votre choix. Suivez votre lumière et ne vous écartez pas du chemin au risque de disparaître à jamais ! Faites atttentions aux autres maisons, vous savez bien qu'elle ne sont pas digne de confiance...

Portfolio de référence

Welcome to Bjarne Stroustrup's homepage!

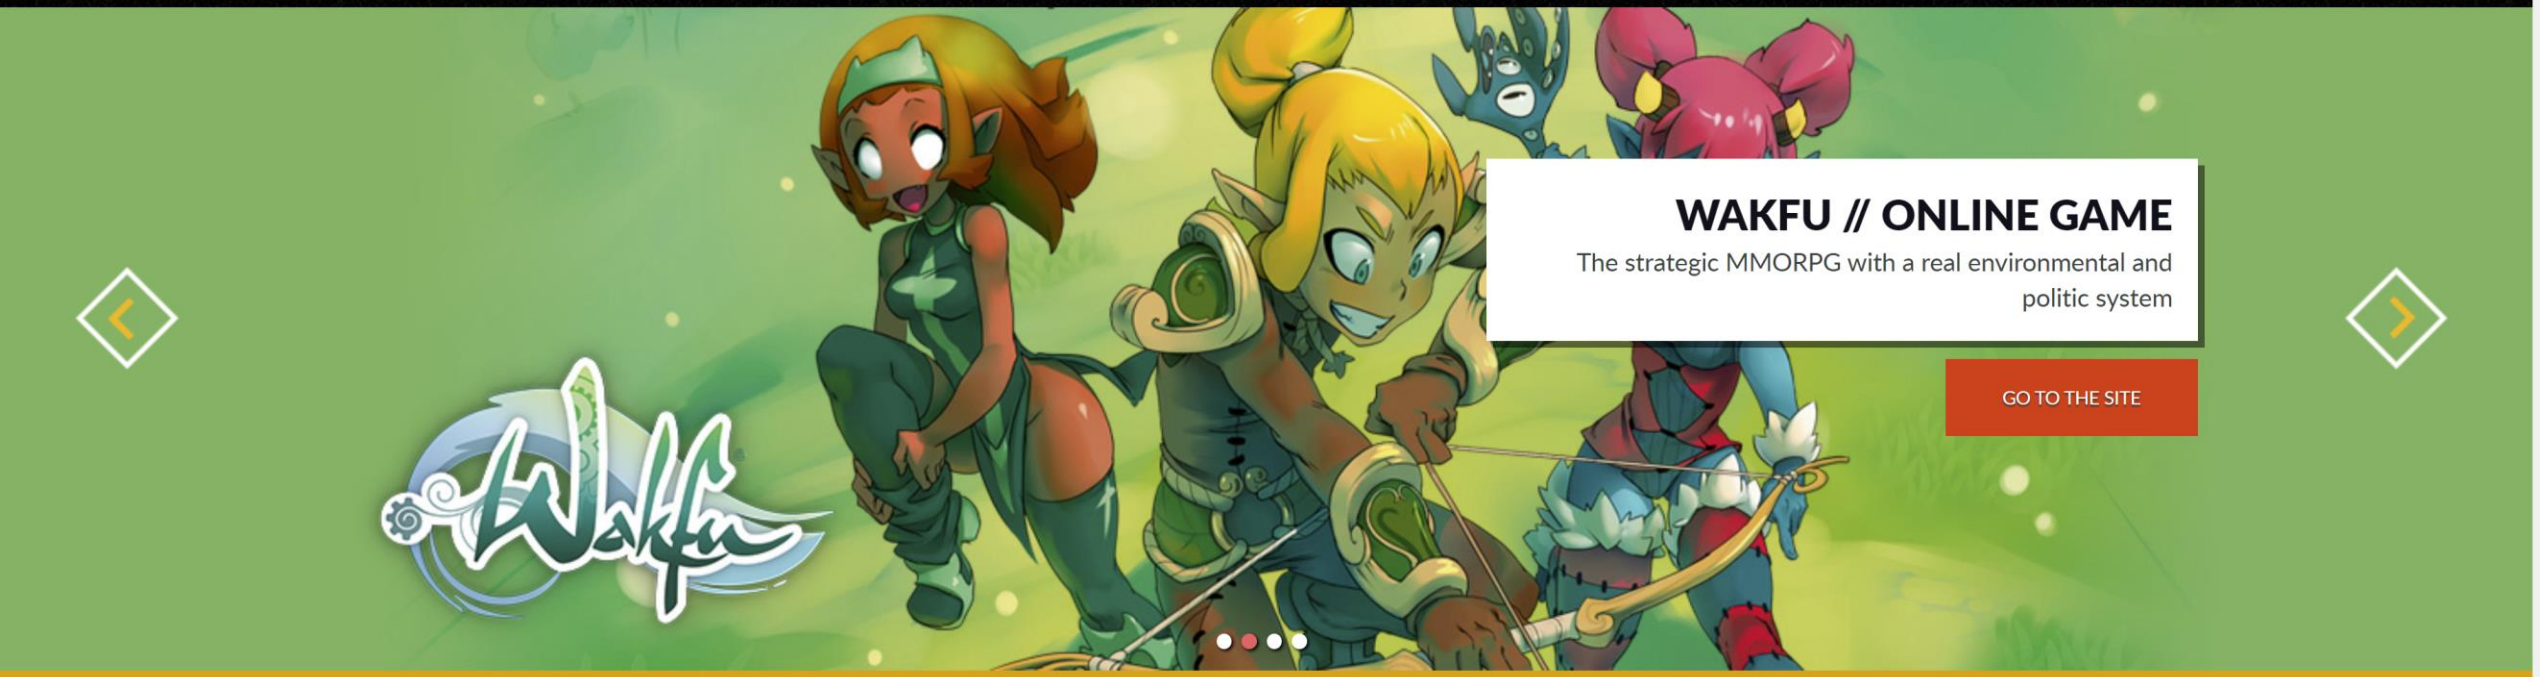

I'm a Technical Fellow and a Managing Director in the technology division of Morgan Stanley in New York City and a Visiting Professor in Computer Science at Columbia University.

I designed and implemented the C++ programming language. To make C++ a stable and up-to-date base for real-world software development, I have stuck with its ISO standards effort for 30+ years (so far).

- A Tour of C++ (2nd edition) (a brief - 240 page - tour of the C++ Programming language and its standard library for experienced programmers)
- The C++ Programming Language (4th edition) (an exhaustive description of the C++ Programming language, its standard library, and fundamental techniques for experienced programmers)
- Programming: Principles and Practice using C++ (2nd edition) (a programming text book aimed at beginners who want eventually to become professionals)
- The Design and Evolution of C++ (a book presenting the rationale and design criteria for C++ and its evolution up until 1994).
- Research and popular papers
- Technical reports and proposals for the ISO C++ Standard
- Videos
- Interviews
- Biographical material.

BONJOUR MONTREAL

QUANTIC DREAM MONTREAL

Choix d’esthétique sombre:

- Élegance
- Humilité
- Sobriété

Objectif professionnel :

- Stabilité financière
- Rémunération des collaborateurs
- Temps plein dans le domaine

Meilleure façon d’atteindre les objectifs :

- Visuels attracteurs
- Démo de jeux
- Confiance des clients

- Un portfolio pour un “Prog” ne me semble pas utile…
- Un portfolio pour un studio est indispensable !
